CLUE #1: King Ullr will greet you here where the crowds all form...early you'll hear the citizens of the Realm exclaim "First Chair!" to the lucky first 4 as they head to the summit to look for more.

CLUE #2: The Queen of Snows enjoys the spotlight so you may see her on your way up...on a run that is bigger than a deer, but smaller than a moose...this run is straight, mellow, and loose. Under a cable, where a green cruiser meets blue, it's here the Queen looks forward to seeing you!

CLUE #3: The Prime Minister likes powder and it built up all week! To ride here with 3 is an impossible feat, so keep your fingers crossed and offer no jinx, you can find the Prime Minister on the way to Lynx!

CLUE #4: The Duchess of Lark says, "If the petals are on top, then I'm at the stem...chair 7 is behind me, look carefully before you load and you will see!"

CLUE #5: Swift like a creek, Prince Frey did ski...too fast did he go and tried to flee. The team with red coats and white crosses is always to the rescue, it's from here they grab their gear and warn Prince Frey to be safe this year!

CLUE #6: Princess Freya likes to play...below rails and boxes is where she'll stay. Her heart and feet may be tender, but this is where she likes to send 'er!

CLUE #7: The view from up here will stop most in their tracks, you might find penguins next to the racks. A quick photo of Glacier, a warmup and a snack...you can even purchase hand warmers to put in your pack!

CLUE #8: When the Yeti Thirst, they head for the tap, and they get a free beer if they remember their cap. The Nachos are huge and when they're all done, they let out a howl and ski down to One.
